EDUCATION

Bachelor of Technology in Computer Science(CS) <i>Noida Institute of Engineering and Technology (AKTU)</i>	Greater Noida, UP 2021 - 2025
Intermediate School (CISCE)) <i>St. John's School</i>	Jaunpur, UP 2021
High School (CISCE)) <i>St. John's School</i>	Jaunpur, UP 2019

INTERNSHIPS

Core Java Training- Internshala - Sep 2022 - October 2022 <i>Core Java Training internship provided hands-on experience with Java programming, focusing on essential concepts.</i>
Python Programming with DSA - YBI Foundation - August 2023 - October 2023 <i>A Python Programming with DSA internship offers practical experience in Python coding and data structures.</i>

PROJECT

Disease Prediction System <i>(STREAMLIT - frontend; Python - PICKLE and NUMPY; Machine Learning)</i> Developed a disease prediction system using Python's NumPy, pickle, and SVM algorithm. Built a user-friendly frontend with Streamlit for interactive data visualization and demonstrated skills in data preprocessing and model training.	Apr. 2024 – July. 2024
Online-Test-App <i>Java - SPRING BOOT</i> Online-Test-App, built with Java - Spring Boot, offers a robust platform for creating, administering, and evaluating tests. Features include user management, real-time feedback, and analytics.	Jan. 2024 – Feb 2024
Online-Book-Store <i>HTML CSS and JAVASCRIPT</i> Created an online bookstore front page with HTML, CSS, and JavaScript. Designed a responsive, visually appealing layout with interactive elements and animations, showcasing skills in web development and UI design.	Dec. 2023 – Jan. 2024

TECHNICAL SKILLS

Languages: Java, Python, JavaScript
Skills: Cloud Computing, Machine learning, Front End Web Development
Developer Tools: Git, Github, Google Cloud Platform
Databases: MongoDB (NoSQL), Relational Database (mySQL)
Libraries: Python (Numpy, GUI, Pandas, Matplotlib), Java (Spring boot)
Relevant Coursework: Data Structures and Algorithms, Operating Systems, Object Oriented Programming, Database Management System, Cloud Computing, Software Engineering

CERTIFICATIONS

* Python for Data Science, AI and Development (IBM) - August 11,2022
* Programming using Java - June 6,2023
* Exploratory Data Analysis - April 9,2024
* Introduction to Big Data - April 11,2024

ORGANISING EXPERIENCE

* Campus Brand Ambassador - Realme India
* President (Dodge Gaming Club) - NIET
* Coordinator(Harmonics Music Club) - NIET
* Video-Editing FREELANCE (Twitter and Discord)
